Exercise 02: Inspect a Suspicious URL

Examine the fictional URL below. Identify the actual hostname.

https://company.example.attacker.invalid/login

What is the actual hostname?

Enter the hostname

Check Answer

Exercise 02: Inspect a Suspicious URL

Examine the fictional URL below. Identify the actual hostname.

https://company.example.attacker.invalid/login

What is the actual hostname?

company.example.attacker.invalid

Check Answer

Correct Answer!

The actual hostname is **company.example.attacker.invalid**.

The final domain is attacker.invalid, not company.example.
